

MyPerformance2021 - Claus Hoerandner

Overall Achievement and Impact

Please take this opportunity to celebrate personal achievements and accomplishments for the year. What stands out? Consider both the impact on the business (results) and how this was delivered (behaviors).

Employee's overall comments

Please see below Continuous Conversation comments for most of the achievements. In addition I was also able to further develop our IFRS17 reporting package by including meaningful exhibits that explain the movement for IFRS17 (loss component, discount and risk adjustment exhibits). We finished the CIID structure which will be implemented early next year and incorporated some important reporting changes in October - GNR, Margin name change, DAC, and multi-currency reporting enhancements.

For next year the focus will be to implement Clearinghouse and continue to enhance our IFRS17 reporting (Balance Sheet reporting and Eliminations). We also need to be able to become more efficient so we can handle the IFRS4 and IFRS17 parallel reporting requirements next year. I would also like to continue to improve my leadership skills by having more meaningful development discussions, delegating more effectively (outcome from manager feedback), and giving my team opportunities to present to management. I will continue to build up my knowledge of the many reporting deliverables we have so we can expand the support and automation to more of FAR.

Manager's overall comments

See comments throughout the year for additional feedback.

As mentioned below, Claus was promoted during 2021, including taking on new managerial responsibilities. I am very impressed with Claus' passion to drive efficiency and support his team. Becoming a new manager is not easy, and Claus is doing a great job. Claus has been quick to take new manager courses and ask questions/seek advice from me as he is going through managerial exercises for the first time. It is evident that Claus is off to a great start as manager based on the results of his manager feedback. His team provided direct feedback to him that they trust him and he is supportive of their career development. Keep up the excellent work!

Claus has also continued to support the team with monthly and quarterly deliverables, helping to drive efficiency in the preparation. In addition, Claus is continuing to build his technical accounting knowledge by supporting with IFRS 17 KPI and analyses and supporting with detailed analysis of CAT results, in addition to other financial review support.

Claus is an exemplary manager and team member. I am grateful to have the opportunity to work with Claus. Thanks for all of your support in 2021.

Comments Throughout the Year

Please record any reflections, including specific achievements and feedback, based on Continuous Conversations throughout the year and particularly during the Progress Conversation.

Note: this comment box is available for editing only during the Continuous Conversation stage. During the Year-end Review it will be visible, but no longer editable.

Employee's overall comments

I believe 2021 has been a success so far. In the beginning of the year, I have focused on my personal goals by delivering the new structure in our reporting, loading the plan, and implementing the PY NEP project without too many hiccups. I then shifted my focus on IFRS17 where I enhanced the IFRS17 reporting by creating more granular IFRS4 to IFRS17 walks (now by LOB and SBU).

In April, I was promoted to people manager and then shifted my focus on larger deliverables than my own. I immediately tried to gain

the skills for management by participating in the Manager Challenge, Global Leadership summit, organizing Reporting Team meetings, and having meaningful development discussions with my team. I think the effort can be seen by the positive feedback I have received from the team on my leadership efforts so far. In addition, I spearheaded the development of the Social Roulette meetings which have enhanced the social interaction within FAR and I also continue to engage in our Workplace group.

I was able to automate our close decks – both IFRS4 and IFRS17 – to have a standardized and repeatable deck that goes to the CFO for sign-off. I have also continued deepening the use of our collaboration tools by putting our files on SharePoint where we can all collaborate on file in real-time and avoid versioning problems (Close deck and Condensed P&Ls). We have also been able to achieve the Alteryx business case for year 1 (both headcount and hours) and continued to enhance our data quality for group submissions (100% data quality). We are delivering on SAP testing, Clearinghouse testing, CIID, and the EPM submission.

For the remainder of the year the focus will be to finish Clearinghouse testing and show the project team any issues we are encountering, implement the new CIID structure, and continue to enhance our IFRS17 reporting (outcomes from EPM and Balance Sheet reporting). I would also like to continue to improve my leadership skills by having more meaningful development discussions and delegating more effectively (outcome from manager feedback).

Manager's overall comments

Claus has had a successful 1H2021. I agree with the achievements Claus summarized below within each Performance Goal section. It has been a very challenging year with significant change, along with numerous project initiatives. The new Financial Reporting team structure was implemented in April 2021 and, as part of this change, Claus was promoted to Senior Financial Reporting Manager. Claus has embraced his new role and the new structure. Like any change, it is taking some time to adjust and transfer responsibilities across the team as deemed appropriate. Some of the key accomplishments to date include:

- successful initial transition into manager role; Claus has taken trainings, set up regular 1:1's and solicited feedback from his team; this success is evidenced by his mgr feedback results where he had 100% participation and all 3 or 4 ratings (which is positive)
- Claus has done a great job leading the IFRS 17 reporting initiatives, including working with actuarial to produce a monthly deck for CFO review and sign-off
- Claus also supported with the production of IFRS 17 RU analytics for the 2Q FIP submission, which required ICFR sign-off for the first time
- Claus has been a lead in the EPM UAT and initial filings; this has been a significant challenge due to many issues that Group did not fully think through before providing instructions for initial data submissions
- Claus has helped to develop and streamline a monthly deck for the P&L sign-off which is leveraged throughout the quarterly close for various meetings, including Group updates, EY updates, and the disclosure committee mtgs
- FAR lead for CIID structure changes
- lead for various UAT, including SAP upgrade

Claus is a great team member and leader. He is passionate about his work and it shows. As Claus mentioned, he was the first Financial Reporting manager to take a lead in the preparing the agenda for the Financial Reporting team meeting. He also initiated the Social Roulette which has been a fun way to get to know our colleagues on a more personal level. Claus has also been our champion of automation, driving efficiencies across the team with the use of Alteryx and robotics.

A couple areas Claus can continue to focus on for further development include:

- more delegation of responsibilities to his team members
- continue to find opportunities for team members to present to management/leadership (to get them more exposure and visibility)
- continue to build knowledge of the various financial reporting deliverables to broaden level of support across the team (once the number of projects decreases....if that ever happens!)

Keep up the great work Claus!

Performance Goals

Please comment on achievements against each goal and select the right performance category for each goal – consider both what was achieved and how it was achieved as you evaluate the performance.

Financial
Financial

40.0% of total score

2021 adjusted HC, excluding Governance, remains at or below 74 (including the FDP which is leading the Alteryx business case). Achieve total adjusted 2021 budget target of \$13.21M.

Focus on process improvement and driving efficiency to keep costs down and ability to take on new work and challenges without additional HC.

Achieve ZNA Group Quality score of 100% (95% is considered low, 95% to 99% is medium & 100% is high).

Focus on delivery of high-quality, complete and accurate materials, including proper documentation and messaging. Especially focusing on the loss writeup for Flux/QVA/MD&A.

Request timely feedback via a survey or end of meeting feedback which indicates all communications are of high quality and usefulness.

Complete monthly closes on time with Life & P&C reporting together. Develop insightful and transparent reporting packages. Work with tax to complete tax provisions from 2 days to 1, allowing extra time to file FIP and thereby reducing staff OT.

Beginning with Q1 close, have monthly IFRS 17 close meeting 4 days after the IFRS 4 close meeting. Develop appropriate reporting package to facilitate review & improve knowledge of what is driving results for CFO, actuaries & PPM.

Meet all financial reporting deadlines 100% of time with no material corrections.

Enhance financial statement analysis to include assessment of relevant accounting standards and compliance.

Support all high-risk reconciliations before filing of results. Resolve all aged items greater than 90 days on a timely basis. Track & resolve unchanged account balances.

Accounting policy memos completed on time and deemed to be high quality by auditors and Group APG. Assist the development a data base for FAR to access and use for resource/developmental purposes, including maintenance of documentation for monthly and quarterly reporting that is readily available to the team.

Ensure managers are able complete RACE sign-off 100% of the time. Transition to Risk is seamless and all FAR related RACE issues closed within 3 quarters of resolution. Develop insightful and transparent reporting packages for EY and work with Internal Audit to resolve all findings.

Rita Falco Comments

I agree with Claus' self assessment. See additional feedback/comments in overall sections above.

Claus Hoerandner Comments

I was able to meet all reporting deadlines without any major hiccups. We also met all headcount targets as a FAR group. In addition, we introduced a standard IFRS4 and IFRS17 deck that helps Peter with his P&L sign-off and streamlines the closing process and have consistently received positive feedback on those materials. We were able to produce P&Ls in parallel between IFRS4 and IFRS17 but were not able to have the close meeting within 4 days due to some data dependencies (yield curves). I introduced an IFRS4 to IFRS17 walk that gives us the ability to drill in by SBU and LOB. I was also able to consistently deliver 100% on the Data Quality dashboard for the CPR score which has been an issue in the past. Made strides in improving our financial statement analysis by enhancing the BU/LE reporting packages as well as introducing IFRS17 BU/LE analytics. I signed off on all my blackline tasks on time and haven't missed any tasks.

Achievements

11/02/2021	Incorporated Margin change to ALHE, GNR, DAC changes, and CAT multicurrency into Reporting for October
10/31/2021	Enhancement to IFRS17 decks to drive further insights
10/31/2021	CAT by RU exhibit for E&Y in cooperation with Reinsurance
08/13/2021	Introduced visualization for Discount and Risk Adjustment compared to Nominal Losses - working on putting this into

	PowerBI
07/26/2021	SAP UAT Upgrade 1909 along with all report maintenance complete
07/01/2021	IFRS17 BU/LE framework built in order to achieve RU sign-off
04/25/2021	Monthly IFRS17 close discussion with Peter including a standardized IFRS17 review deck
04/01/2021	Achieved Group Quality Score of 100% in Q1
03/01/2021	Enhanced capabilities for IFRS17 by creating a SBU/LOB IFRS4 to IFRS17 BOP walk
03/01/2021	Implemented standard IFRS4 close deck with same look and feel for P&C, Life, ZRS

Goal Details

Goal Name	Financial	Weight	40.0%
Description	Contribute to achieving 2021 FAR budget and HC targets, including IFRS 17, as adjusted from Plan and accounting for Governance Team transfer to Risk.		
	Maintain and or improve ZNA Group Quality scores.		
	Enhance monthly and quarterly close communication with CFO, ExCo, Disclosure Committee, Board, Audit Committee and EY.		
	Deliver consistent and high quality IFRS 4 monthly closes, including reporting packages to key stakeholders. Accelerate tax booking on the quarter from 2 days to 1.		
	Develop cadence and reporting packages for IFRS 17 monthly closes for P&C, including walks from IFRS 4 to 17, and rules of thumbs for what is "expected" by SBU & LOB.		
	Operationalize inter RU eliminations, EPM requirements and new KPIs.		
	Meet all financial accounting & reporting deadlines all the time, including FIP, with minimal issues, reopens or errors.		
	All account reconciliations completed on time and aged items are resolved on a timely basis.		
	Develop Accounting Policy database and provide clear and correct conclusions in a coordinated fashion with Group APG.		

Ensure RACE controls are completed each quarter. Transition responsibilities from FAR to Governance for 2nd line. Close all open FAR related RACE issues on a timely basis. Ensure transparency with internal & external auditors.

Operational Excellence

20.0% of total score

Projects

Group submission deadlines are met by the BU's (e.g. FIP, EPM, Group Re, ACE, and Race Sign-off).

BAU finance staff trained in IFRS 17 topics and processes relevant to Full Parallel Run.

Ensure IFRS 9 accounting is properly reflected in financial results.

Deploy Clearinghouse on 10/1/21. Absorb additional work for filing FIP without adds to staff. All implementation issues cleared by month of December close. Monitor CH backlog issues in US and Canada.

Complete all other projects on time. Support preparation and analysis of ZCS financial statement and FIP filings beginning with February 2021 reporting. Smooth transition to EY beginning in the Spring of 2021.

KRT status is Green for all FAR related items.

Load Plan for both IFRS4 and IFRS17 into SAP so it can be reported on P&L Report Card.

Restate prior year data in SAP in new BU structure.

Deliver the IFRS17 financial data through EPM for UAT and Dry Runs

Deliver PY NEP project to production and regular reporting

I agree with Claus' self assessment. See additional feedback/comments in overall sections above.

Claus Hoerandner Comments

On the project front me and my team were able to deliver on most of our initiatives. This includes Clearinghouse UAT, EPM Light Parallel run, loading Plan for IFRS4 and IFRS17 for the first time, restating Plan and Prior Year, implementing the PY NEP project at the beginning of the year, and finalizing the CIID structure for 2022. We were also able to run the IFRS17 reporting in parallel for most of the year.

Achievements

09/30/2021	Clearinghouse UAT complete
09/30/2021	EPM Actual Submission
07/26/2021	CIID structure 1-4 complete and presented to Finance team
05/01/2021	EPM UAT successfully tested
02/01/2021	Loaded and tied out plan for both IFRS4 and IFRS17
02/01/2021	Restated prior year in new BU structure

Goal Details

Goal Name	Projects	Weight	20.0%
Description	Complete IFRS 17 Implementation and IFRS 9 project work.		
	Complete Clearing House Part II.		
	Complete the other key projects ultimately prioritized by FLT related to G-Treasury, Zurich Commercial Services, the EPM Platform, CIID & auditor rotation.		
	Support other projects and or new products as required.		
	Support CFO KRT assessment at Green Status.		

People

25.0% of total score

Management and People

Connect across teams to identify and facilitate development opportunities (i.e., play a role in facilitating lateral moves / shadowing), support direct report in achieving their development plans.

Attend all management training and translate those learnings into actions like more effective career conversations and support of development goals.

Use continuous conversations to discuss People Goal results with the same frequency and emphasis as Customer, Financial and Projects Goals.

Support the implementation of the Financial Reporting Unit reorganization announced in April 2021. Eliminate silos, improve training and development, improve motivation and promote key talent.

Claus Hoerandner Comments

I was promoted to a manager role in April and have tried to come up to speed as quickly as possible. I did so by immediately jumping into some training (Manager Challenge) that helped me gain some of the skills needed. The surveys showed that the team trusts me and has meaningful career conversations and at the same time gave me some great feedback on how to develop further as a manager. I also tried to stand up some larger FAR initiatives by introducing FAR Social Roulette which has been positively received.

Achievements

10/31/2021

IFRS17 Ambassador role - teaching the Financial Reporting Team new concepts

08/13/2021	FAME Finalist for Leadership - Individual Contributor
08/05/2021	Attended Global Leadership Summit to improve leadership skills
06/01/2021	Organized June Financial Reporting Team Meeting
05/01/2021	Started Social Roulette to foster greater collaboration between individuals and boost engagement

Goal Details

Goal Name	Management and People	Weight	25.0%
	Development – Team Growth: Developing, mentoring and sponsoring talent across the organization.		
	Development of yourself: Attend management training and become an effective manager/leader to your team.		
Description	Performance: Engaging employees in robust conversations around their people manager goal.		
	Engagement: Championing a culture of open, honest & transparent communication.		
	Engagement: Making progress towards the future state of diversity, inclusion, equity and belonging.		

Other 15.0% of total score

Automation

Year 1 Alteryx business case achieved through cost reductions or redeployment of staff equivalent to 1 FTE for 2021 with an additional FTE reduction realized by year end for 2022.

Number of automation opportunities identified. FAR to deploy at least 70 projects in 2021. Everyone to identify and implement at least one automation improvement.

Efficiencies gained from automation opportunities – total number of hours saved, number of hours capacity generated in your team that can be redeployed. FAR to create the equivalent of 2 FTE in capacity by year end 2021 (one of which is the same as the Alteryx BC bullet point above).

Examples of use cases discussed at team meetings.

Team achieving targets on F&A Simplification SharePoint Site. FAR will set quarterly targets for deploying projects and realizing capacity goals.

Alteryx license owners in team meet or exceed Alteryx use case goals based on F&A Simplification SharePoint Site.

Rita Falco Comments

I agree with Claus' self assessment. See additional feedback/comments in overall sections above.

Claus Hoerandner Comments

We made some great strides in the automation space. We achieved the Alteryx business case hours as well as headcount reductions. I was able to mostly automate our IFRS4 and IFRS17 decks to give us more time to analyze the numbers. The Robots handle most of our Reporting refreshes and have been extended to also do some control balancing work for Doug’s team. Alteryx licenses are in the right hands and we are currently working on filling the 2022 pipeline with projects. The key to our success will be to continue our current momentum into 2022.

Achievements

11/02/2021	Automated Control Balancing using Blue Prism and Alteryx together
11/02/2021	Process to copy account mapping to all BU/LE files
04/01/2021	Achieved Alteryx Business case headcount reductions
03/01/2021	Automation of IFRS4 and IFRS17 close deck
02/01/2021	Translation of IFRS4 and IFRS17 Plan data from BPC to SAP using Alteryx
01/01/2021	Fully automated IFRS4 and IFRS17 P&L reporting through robotics

Goal Details

Goal Name	Automation	Weight	15.0%
Description	Challenge the status quo by reviewing processes in team for process improvement and automation opportunities.		
	Empower your team by emphasizing importance of automation and highlighting training opportunities.		
	Drive accountability by highlighting use cases and giving team access to automation tools.		
	Deploy team members working on automation projects by prioritizing workloads to give time for automation.		
	Deploy Alteryx license owners with identifying processes for automation across the team and/or department and completing repeatable workflows both within and outside the team.		

Overall Performance Category
