

MyPerformance2025 - Claus Hoerandner

Overall Achievement and Impact

Please take this opportunity to celebrate personal achievements and accomplishments for the year. What stands out? Consider both the impact on the business (results) and how this was delivered (behaviors).

Employee's overall comments

2025 was a year of transformative progress, marked by operational excellence, strategic innovation, and strong leadership outcomes.

Operational Excellence & Reporting Enhancements

We successfully implemented the new 2025 reporting structure without requiring a CIID change, delivering a major efficiency gain. My team completed all filings on time with **100% data quality scores**, reinforcing confidence in our close process. I introduced several high-impact reports—including the BU Sign-off report, consolidated Balance Sheet, Reinsurance Treaty report, and Cash Flow statement—providing real-time insights that enable faster, more informed business decisions. Additionally, I partnered with the TravelGuard team to design a reporting solution for 2026 and integrated their EPM filings into our streamlined process, setting the stage for future scalability.

Innovation & Strategic Projects

I led initiatives that significantly improved accuracy, visibility, and efficiency. The **Crop DAC automation** saved critical hours during close and enhanced review accuracy. I spearheaded the **AI pilot**, presenting key findings at the all-employee meeting and positioning us for future AI-driven capabilities. The **ICR enhancement project** delivered a streamlined process, a new dashboard, and improved visibility through the ICR tracker. We also launched the **BU/LE dashboard**, enabling better review and analysis of legal entity results.

Automation & Enterprise Support

Beyond leading projects, I supported major initiatives and ad-hoc requests, including the non-CIID project for 2026 and designing next year's reporting structure. I developed a process to incorporate the 2026 Forecast into SAP alongside the existing plan, improving accuracy and transparency. On automation, we achieved a major milestone—completing **35 automation projects in 2025**, up from 23 in 2024—saving critical hours during the close process and driving efficiency gains across the team.

Leadership & Professional Growth

I completed my **CPCU designation**, demonstrating commitment to professional development. I showcased my Alteryx expertise on a customer panel with United and Hyatt, reinforcing external thought leadership. Internally, my leadership was recognized through strong EMF scores, reflecting positive perceptions of my management style and team engagement.

Chris Michalski Matrix Manager overall comments

Overall, Rita's comments included below formed the basis for Claus' results. Claus continues to be our go to person on transformation, automation, enhancements. I am always impressed by Claus' responsiveness and willingness to dig in. He is extremely valuable to this team and I'm hoping we can find better opportunities with Finance Transformation on the horizon to better leverage his skill set. I look forward to working with Claus in 2026 and beyond.

Note: this comment box is available for editing only during the Continuous Conversation stage. During the Year-end Review it will be visible, but no longer editable.

Employee's overall comments

This year has been very productive. At the outset, I managed a personnel shortage due

to Pasito's maternity leave while simultaneously implementing a revised reporting structure across all deliverables. During this period, I relied on strong collaboration within the team to meet our objectives. I also launched a new consolidated balance sheet report and BU sign-off report for James, and contributed to the development of a CoverMore reporting solution, scheduled for integration into EPM in 2026. We consistently achieved a 100% data quality score for all EPM submissions and will begin handling CoverMore submissions in Q3.

Additionally, I led the ICR Improvement Project as a stretch assignment, significantly enhancing our quarterly close process. I participated in the CoPilot program, where I explored AI integration into our workflows and subsequently shared these insights at the F&A Meeting. Our partnership with Alteryx allowed us to explore advanced AI tools, and I had the opportunity to represent Zurich on a customer panel alongside Hyatt and United Airlines. Finally, I continued my professional growth by completing my CPCU designation.

Rita Falco Matrix Manager overall comments

2025 has proven to be another busy year. Claus continues to be a go-to person in the Finance organization because of his strong knowledge of the data and ability to extract it efficiently. Claus is also great to work with because of his great attitude. Claus gets numerous ad hoc requests from across the organization, including the CFO. He delivers timely, accurate information. He is very dependable, and I can always trust his analyses. Some of the additional work he supported with in 2025 so far, includes:

- ICR enhancement work stream (led to ICR dashboard & ICR Tracker). This workstream produced immediate results with less noise around the ICR process for Q2 and Q3 close. ICR's will always be a challenge, but the more insight we have to the data, the more proactive we can be with our counterparties. In addition, we need to be coordinated as a Finance team, and the ICR dashboard and tracker supports this.
- Life automations - GRE Upload / ACE Statisticals / ZCOR Reports - saves hours during the critical close period. This is a significant savings, in addition to other automation that has been brought to the Life team. Claus and Nan (and teams) have made a huge impact here, saving DAYS during each quarter close. With this automation, we've been able to go down a person on the life team. Goga moved to the ICFR team and we did not replace her role on the Life side. Goga does still support w/ the FIP filings each quarter to provide some relief to the team during that crunch period, but otherwise, the team has absorbed the role.
- Consolidated Balance Sheet (by BU) and BU sign-off reports
- Reinsurance Treaty report - including Plan. This has brought good insight to the reinsurance bookings and is an important part of my review each month.
- Cash Flow statements
- New DAC roll forward report - increases efficiency/accuracy and saved hours during the critical close period. This has saved me time each month, as I can get a quick view of the key DAC KPI's to ensure there are no material errors or issues in the DAC reporting.
- Reporting Structure 2026 (non-CIID changes)
- New Investment Income Allocation
- BU/LE dashboards (USD and CAD)
- ZGL net retention entries with Reinsurance (Alteryx vs IT solution)
- Cross border deductible roll-out
- Co-developed the TravelGuard reporting solution
- Incorporated TravelGuard into our EPM process / Enhanced Life EPM submission (LOB requirements)
- Forecast in SAP - not just plan (work in 2025 - rollout in 2026)
- AI Pilot (Copilot)
- STAT to IFRS automated walks
- Sustainable premium data pulls

On top of Claus' day to day and all the ad hoc efforts above, Claus is viewed as a leader within FAR due to his involvement in so many other activities. Claus is a champion of getting the team engaged in volunteering and social events. Claus is a natural leader and brings so much value to the FAR organization. His strong management skills are evidenced in his manager survey results, which were exceptional. He had 100% participation from his team and completely agree/strongly agree ratings across the board. Claus should be very proud of those results and keep doing great things with his team!

I will miss working with Claus - but I'm looking forward to staying in touch and hearing all about his continued success at Zurich.

Performance Goals

Please comment on achievements against each goal and select the right performance category for each goal – consider both what was achieved and how it was achieved as you evaluate the performance.

Financial

35.0% of total score

Financial Close

Complete all quarterly and year-end filings, processes and controls accurately and on time. No material issues discovered by external auditors and FAR operates transparently with all stakeholders.

Maintain or improve the ZNA Group Quality score of __% from year-end 2024.

Create a TOM and hire resources to create the G/L, record transactions and generate accruals for the MGA and Insurance Operations in the US and Canada. Complete the first FIP filings for June 2025 close. Continue to train all stakeholders on a real-time basis and integrate MGA finance resources into FAR. Continue efforts to improve process for all of 2025 and 2026. Work with Cover-More team to deliver what ZHCA needs to complete the ZHCA Q3 2025 FIP filings. Transparent communication with Group FAR on issues and delays.

Resolve all aged items greater than 90 days on a timely basis. Track & resolve unchanged account balances for all items prior to June 2025 by year-end.

Claus Hoerandner Comments

At the start of the year, we successfully implemented the new 2025 reporting structure without requiring a CIID change—a significant efficiency gain. My team completed all filings on time and with exceptional accuracy, as reflected in our consistent 100% data quality scores. I introduced several key report enhancements, including the BU Sign-off report, a consolidated Balance Sheet, a Reinsurance Treaty report, and a Cash Flow statement. These reports provide real-time insights that strengthen our ability to support the business. Additionally, I partnered with the TravelGuard team to design a reporting solution for 2026 and integrated their EPM filings into our process, leveraging our streamlined approach. Looking ahead, we are preparing to deliver another reporting structure change in 2026 outside the formal CIID process.

Achievements

11/05/2025	TravelGuard EPM filings
11/05/2025	Created Reinsurance Treaty Report
11/05/2025	Created Cash Flow Statements
11/05/2025	Completed Q3 filings
08/12/2025	Completed Q1 filings
08/12/2025	Incorporated new 2025 Reporting Structure
08/12/2025	Consolidated Balance Sheet reporting
08/12/2025	Created new BU sign-off reporting
08/12/2025	Helped develop CoverMore reporting solution

Goal Details

Goal Name	Financial Close	Weight	35.0%
	Business as Usual: Deliver consistent and high-quality year-end close and quarterly reporting packages. Outside of Group deliverables, meet all audit reports and statutory filings with no material issues. All account reconciliations completed on time and ensure RACE/SOX 1st line of defense controls are completed. No out of period adjustments and no material issues.		
	Maintain and or improve ZNA Group Quality Scores		
Description	Exceptional Activities: Integrate Zurich Cover-More's North American operations into the ZNA back office. This includes integration of FAR Cover-More personnel, FIP filings and all aspects of the closing process/reconciliations, etc. This work cannot be completed with existing resources.	Comments	
	Work with Cover-More to let them know what they need to provide us for the international operations in order for us to close ZHCA's books.		
	Continue efforts to reconcile and resolve old outstanding reconciling items related to activity prior to June 2025.		

Operational Excellence

20.0% of total score

Projects # 1 FAR Led

Eliminate and or automate unnecessary work via Alteryx, AI, structure changes and other opportunities. Double-down on FAR database ideas to reduce cost. Examples of use cases discussed at team meetings. Eliminate the workload of 2 people (this includes offshore work).

2025 adjusted HC at or below __. Achieve total adjusted 2025 budget target.

Complete integration requirements in alignment with BU's strategic plans. Shut-down SIS resulting in no audit required to be completed for year-end 2025.

Complete Phase 3 of Nabisco by Q1 2025. No audit issues or FIP reopens.

A high caliber knowledgeable team is hired and the 2 process flows are documented by year-end. Audit Committee updated on progress during the year as needed. Begin next step of working with Risk to adjust number and quality of controls.

Throughout 2025, I provided support across all projects and ad-hoc requests, ensuring timely and effective delivery. Key highlights include supporting the non-CIID project for 2026 and designing the solution and reporting structure for next year. I also developed a process to incorporate the 2026 Forecast into SAP alongside the existing plan, enhancing visibility and accuracy. Additionally, I drove progress on our automation roadmap, focusing on life automations to save critical hours during the close process. As of November 5th, we have completed 35 automation projects—up from 23 in 2024—representing a significant efficiency gain.

This year, I achieved several significant milestones that reflect both personal growth and organizational impact. I successfully completed my CPCU designation—a goal I had pursued for years—demonstrating commitment to professional development. I showcased my Alteryx expertise by serving on a customer panel with United and Hyatt, reinforcing our thought leadership externally. Internally, I spearheaded our AI pilot and presented the findings at the all-employee meeting, driving innovation and strategic insights. Additionally, my EMF scores highlighted strong, positive perceptions of my leadership style, affirming my ability to lead effectively and foster team engagement.
