

MyPerformance2024 - Claus Hoerandner

Overall Achievement and Impact

Please take this opportunity to celebrate personal achievements and accomplishments for the year. What stands out? Consider both the impact on the business (results) and how this was delivered (behaviors).

Employee's overall comments

Overall 2024 has been a successful year. Please see below for comments on the first half of the year. In the second half of the year I was focused on implementing some new reporting solutions at the request of our new CFO James Bracken. We developed new reporting solutions for Reinsurance and created a WAQS walk to show exclusions from the WAQS reporting. I also continued improving the Life close process by bringing significant automation and process improvement to the Life GRE Upload which freed up time for the Life team during the close critical crunch period. We also rolled out dashboarding on the P&C side which helps with analyzing variances and will replace some of our processes on the BU/LE side in the long run. This InfoRiver solution seems to be interesting to a few other countries and departments within ZNA as we have given demos to them to show the capabilities of this new tool.

I am most proud of maintaining high EMF scores and fostering a strong team dynamic within my team by doing team outings and having robust career and development discussions. The Cooking with Heart initiative was able to raise over \$34K and fostered a strong community spirit among the entire Finance department.

Manager's overall comments

It has been a very busy 2024, but Claus is on track to achieve all of the key FAR objectives for 2024.

In addition to doing his day job exceptionally well, he worked on delivering a number of key enhancements to the Life companies and the P&C companies which has allowed for a dramatic improvement in analytical capabilities, process close improvements and efficiencies across all of FAR. He has also been heavily involved in one-off projects and requests of the CFO and others to create new reports and capabilities for the Finance Directors. He also led the Cooking with Heart initiative raising over \$34K for the American Heart Foundation.

Claus had an excellent year overall and is a key member of my team! Thanks for all of your hard work this year!!

Comments Throughout the Year

Please record any reflections, including specific achievements and feedback, based on Continuous Conversations throughout the year and particularly during the Progress Conversation.

Note: this comment box is available for editing only during the Continuous Conversation stage. During the Year-end Review it will be visible, but no longer editable.

Employee's overall comments

The first half of the year has been successful. Please refer to achievements in each goal for a detailed breakdown of what me and my team have accomplished so far. At the beginning of the year, we were primarily focused on year-end reporting, incorporating plan, and achieving high data quality scores in our Group/EPM reporting. Then I shifted my focus on automation and process improvements. We made some improvements in the efficiency of Life reporting by mirroring what we do on the P&C side and implementing automated bookings for Waivers and TOM entries. This saves the Life team many hours which are being used to improve the data quality and analysis of the Life results. We also continued to enhance our reporting capabilities on the P&C side by adding LOB views for Topline reporting and Underwriting KPI views. In addition, new P&L views like ZNA ex F&I ex Captives ex Crop have been included in our reporting packages and a new ICR check report has been rolled out to the Financial Reporting team. I also lead a high-achieving team and I try to support them by having everyone attend and apply the Inclusion training as well as leading a few team outings (Cooking class and Feed My Starving children volunteering). I am also still supporting and guiding the FAR Social Committee.

In the second half of the year the focus will be on incorporating Lagerfeld and Cowbell in our reporting as well as standing up the InfoRiver visual reporting solution.

Performance Goals

Please comment on achievements against each goal and select the right performance category for each goal – consider both what was achieved and how it was achieved as you evaluate the performance.

Financial

10.0% of total score

Financial Goal #1

Maintain or improve the ZNA Group Quality score of 99% from year-end 2023. 95% is considered low, 95% to 99% is medium & 100% is high.

Ensure account reconciliations (including subledger detail) are completed timely and accurately, ensuring all aged items are properly identified in Blackline for escalation and timely resolution.

Review assigned RACE controls each quarter to confirm control description and evidence is still accurate. Review process documentation annually.

Fully automate sustainability reporting .

On-board new life team members and have them be fully involved/lead the Q1 2024 close. Hire new roles for Phase IV (4 new roles approved) by October 1, 2024 to complete onboarding and preparedness for January 1, 2025 planned go-live.

Select a minimum of 2-3 tasks per team to document desktop procedures and upload documentation to Financial Reporting SharePoint.

Bob Daniel Comments

I agree with Claus' comments. The last available Group scores for the filings was 99.5% YTD as of 11/11/24. It was 100% for discrete Q3 2024.

All of the FIP quarterly filings went exceptionally well and there were no reopens or corrections.

The upgrades to the Life team have been impressive and the Life reconciliation review was completed on time. Overall the Life close process and made a huge leap forward under Claus' guidance and automation improvements and analytical reporting enhancements! My review of results is not completed in minutes via the various new views vs hours of checking and reviewing different views manually!!

Claus Hoerandner Comments

Please see achievements for detailed breakdown. Maintained high quality scores and improved local finance data/systems by implementing dashboard reporting. Also many of our most important tasks have been documented and uploaded as desktop procedures.

Achievements

11/01/2024	Integrate Cowbell investment into Management View
11/01/2024	Developing Visual P&L through Inforiver
11/01/2024	Project Lagerfeld
11/01/2024	Develop DTP for each team member
11/01/2024	Move BU/LE Report Cards into Dashboard
05/21/2024	Included BEPS Pillar II in reporting
05/21/2024	RACE sign-offs on time

Goal Details

Goal Name	Financial Goal #1	Weight	10.0%
	Finance Data Quality and Operational Stability: Ensure timely and accurate production and reporting of financial data to the Group in compliance with Group Accounting Policies.		
	Meet the requirements defined by the Data Quality Scorecards.		
	Focus on improving local finance data, systems, and processes for smooth financial closing and preventing material errors.		
Description	Periodically review ICFR controls to ensure the end-to-end effective design and operation of controls around reserving, accounting, and financial reporting.		
	Identify resource requirements, understand, support, and build out a structure to achieve automated Group Sustainability Reporting.		
	Integrate new team members on Life, Project Nabisco and any other new hires in 2024.		
	Develop talents on the team through knowledge-sharing/cross-trainings with improved documentation on DTP.		
	Achieve 2024 FAR budget and HC targets.		

Financial

35.0% of total score

Financial Goal #2

Complete all monthly, quarterly and year-end filings, processes and controls accurately and on time. No material issues discovered by external auditors and FAR operates transparently with all stakeholders.

Redesign report card package for non-tech, Premium tax, and loss ratio changes. Submit plan into SAP. Enhance variance analysis through tools like Inforiver. Implement additional eliminations for cash and cash equivalents. Consider need for Quarter over Quarter analytics for the BU/LE packages.

National Accounts BU (Finance Director and COO) to execute monthly accrual and controls and share results, including KPI used to monitor operational effectiveness. Ensure no material issues during the close.

CLH clean up.

Streamline life reporting by implementing similar reporting processes to P&C and further automating Life Waivers and TOM bookings.

Develop IFRS to US stat/SLST reconciliations that help pinpoint any reporting issues.

Manager Evaluation

Bob Daniel Comments

All monthly IFRS 17 closes for P&C, Life and ZRS have been completed on time. Exceptionally high quality and transparent P&C and Life close decks (which are automatically updated with each version of the close) are prepared with summarized P&L data for YTD and QTD results including a summary of significant transactions/activity/accounting estimates for the month and any close issues.

The group audit on account reconciliations was successful and indicated no significant issues. The 2023 CPP issue was resolved for year-end reporting and the control side is set to close by year-end 2024. This was a massive effort to get this done!

Most impressively he did also supported the CFO of multiple new views to assist him in understanding ZNA which has been a huge amount of work and he did an outstanding job.

Claus Hoerandner Comments

The team and I have achieved a lot in this area. We delivered the monthly close without missing any deadlines while continuously focusing on process and automation opportunities. We brought a lot of automation to the Life team, and enhanced the P&C close by leveraging dashboard reporting. In addition, we were asked to develop new reporting solutions by our new CFO so new Reinsurance reporting and WAQS reporting has been implemented. For a further breakdown of completed goals please see achievements.

Achievements

11/01/2024	Developed WAQS walk
11/01/2024	Created Reinsurance Report
11/01/2024	Develop BU/SBU Balance sheet reporting
11/01/2024	Automated GRE Upload for Life
08/01/2024	Automated and enhanced Waiver posting for Life
05/22/2024	Centralized BU/LE account mapping
05/22/2024	STAT expense reporting by LOB
05/22/2024	STAT hierarchy created
05/21/2024	IFRS17 Plan in SAP
05/21/2024	Enhanced IFRS17 reporting and reconciliation against Actuarial slides
05/21/2024	Taken on EPM filings for Life
05/21/2024	Streamlined Life reporting with new Trend
05/21/2024	Automated TOM posting for Life

Goal Details

Goal Name	Financial Goal #2	Weight	35.0%
Business as Usual: Deliver consistent and high quality IFRS 17 monthly/quarterly close and reporting packages. Outside of Group deliverables, meet all audit reports and statutory filings with no material issues. All account reconciliations completed			

on time and ensure RACE/1st line of defense controls are completed.

Prepare and enhance reporting packages for 2024. Continue to refine the elimination process to avoid local and group reporting discrepancies.

Description

Other 2024 Actions:

Automate and move ceded premium payable accrual to BAU.

Strengthen review/controls around Clearinghouse.

Streamline Life reporting.

Incorporate Life EPM reporting into other P&C EPM reporting.

Implement quarterly IFRS to US stat/SLST reconciliation for JV's.

Bob Daniel Comments

I agree with Claus' comments. He is an exceptional manager and natural leader that works to engage his team and support them in their careers.

He operates in compliance with Zurich's code of conduct and ensures all Corporate Responsibility requirements are met and behaviors are demonstrated. SMART objectives aligned with the department and ZNA strategies were completed for all employees. He also utilizes the Kudos Cards, Impact Awards and just saying thank you and good job throughout the whole year.

We also have had excellent ENPS scores in 2024 thanks in large part to Claus with a score of 92% with a 99% participation rate. Areas we continue to work on include work life balance issues.

He also drove the fund raising efforts to raise over \$34K in the Cooking for Kids fund raiser and a key member of the FAR social committee which helps to keep the morale of the team up while working long hours.

Claus Hoerandner Comments

I'm most proud of my achievements here as I was able to achieve high EMF scores, foster a strong team by doing a few team building events, and having strong development discussions with each team member by leveraging the MyJourney tool. We were also able to

raise more than \$34K for the Cooking with Heart Fundraised which engages the entire Finance department. Please see achievements for detailed actions taken in 2024.

Achievements

11/01/2024	Discuss MyJourney results and develop action plan
11/01/2024	Cooking with Hear raised \$34K+
11/01/2024	Outstanding EMF results
08/01/2024	Attended Global Leadership Summit
08/01/2024	Team Outing - Feed My Starving Children
05/21/2024	Full participation of team in ZES
05/21/2024	Busse Woods Clean-up
05/21/2024	Participated in Q1 Day of Learning
05/21/2024	Inclusion training
05/21/2024	Team outing - Cooking class to enhance employee engagement

Goal Details

Goal Name	2024 Managers Goals	Weight	25.0%
Description	Consistently live into Manager Framework - 15% of people manager goal		
	Align with the key areas of performance, development, engagement and trust		
	Engage your employees in ongoing robust conversations around their career aspirations and development plans		
	Take into consideration the needs of your team		
	Demonstrate personal ownership to proactively retain and attract talent – 10% of people manager goal		
	Embrace mindset of ZNA talent, not my talent		
	Promote and support wellbeing		
	Foster and support a flexible working environment and create an equalized experience for the employee		
	Proactively network and serve as an employment brand ambassador to develop talent connections that can later serve as potential applicants and to increase our brand equity in the marketplace

Projects # 1 FAR Led

Track opportunities on the Innovation log. Use tools like Alteryx and Workiva to simplify and automate the identified processes and minimize manual adjustments. Take advantage of training opportunities to further develop automation skills.

Complete DAC go-live as of 1/1 without any financial misstatements or delays for the February close.

Nabisco phases 2-4 go live without causing any delays during the close or material issues.

Execute transfer in Q3 2024 effective for 7/1 reporting without causing any delays or material issues.

Target Q2 for Gain compliance reporting.

Identify and implement opportunities to streamline FIP submissions and checking procedures.

Bob Daniel Comments

I agree with Claus' comments.

Mid-year 2023 Claus implemented a FAR Innovation Log to generate simplification and automation ideas across all FAR teams. This log continued in 2024. The log creates accountability for these ideas to be implemented and prioritizes them based on expected impact. It also lets us connect the innovation idea with an appropriate automation specialist who can implement the idea as efficiently as possible. To date, the log generated 93 ideas of which 34 have been successfully implemented. More successes are planned for 2025.

The DAC automation process went live on 1/1/24 and worked exceptionally well.

Nabisco Phase I and II were delivered in Q1. A draft internal audit report indicated no accounting or financial control issues. This was a substantial amount of work to get this done and delivered and included the FIP filings, statutory annual and quarterly filing for the IRS and the transfer of assets and intercompany booking of the transactions. Phase 3 is on track to be delivered for year-end 2024 for Farmers. Phase 4 was cancelled by Group.

Claus Hoerandner Comments

The innovation log has been our guide at high value automation and process improvements in 2024. Through this document we identified opportunities on the Life side for significant time reductions during the close and enhancements on the P&C side to leverage dashboarding. Rather than focusing on the FIP submission in 2024 we focused on upstream processes to make the FIP submission and EPM submission more efficient. I think we have done a great job alleviating some of the pressures on the Life team during the FIP and EPM submission process. Please see achievements for detailed actions taken in 2024.

Achievements

11/01/2024	Nabisco Phase 3
11/01/2024	Innovation log to identify new automation opportunities
08/01/2024	Innovation Log - continuous improvement
05/21/2024	Automated DAC go-live
05/21/2024	Nabisco Phase 2

Goal Details

Goal Name	Projects # 1 FAR Led	Weight	20.0%
	Challenge the status quo by continuing to review processes for process improvement and automation		

opportunities by empowering the team.
Use training opportunities throughout
the year to enhance skill set.

Complete DAC go-live.

Description Execute Project Nabisco accounting for
Phases 2-4.

Complete the Life Non-Core/Core
transfer project.

Implement Gain Compliance.

Review FIP for further
automation/efficiency opportunities.

Other

10.0% of total score

Projects # 2 FAR Supporting

Support work as needed on all F&A projects. Feedback from various F&A units on support will be obtained to support the final ratings.

Roll out ICR report to wider audience including the AY and LOB dimension. Avoid ICRs that cause re-opens and leverage for ICR report V600 filings.

Complete all projects on time and provide support as needed.

Develop new GWP, NWP reporting to monitor Motor performance.

Develop mechanism to submit SBU level detail in EPM and achieve 100% data quality.

Manager Evaluation

Fully Met

Self Evaluation

Fully Met

Bob Daniel Comments

I agree with Claus' comments. No issues noted. See comments above

Claus Hoerandner Comments

Luckily the SBU submission in EPM did not go live in 2024 giving us more time to focus on other automation opportunities. Instead we developed new topline reporting to show GWP, GNWP, NWP by LOB to help track production. In addition, we were able to roll out a dashboard solution for our P&C reporting and bring significant automation to the Life team. We are working on rolling out enhanced ICR reporting by year-end to give us better insights into out of balances. For a further breakdown of completed goals please see achievements.

Achievements

11/01/2024	Reinsurance Reporting implemented
11/01/2024	GNWP reporting for Topline
11/01/2024	P&L dashboard rolled into monthly close
08/01/2024	Complete Topline reporting by 5 Major Lines
08/01/2024	Underwriting KPI reporting by 5 major LOBs

05/21/2024	Automated Waiver posting for Life
05/21/2024	GWP NWP report for Motor
05/21/2024	ICR Monitor implemented

Goal Details

Goal Name	Projects # 2 FAR Supporting	Weight	10.0%
	FAR Support for F&A: Support all F&A projects on an as needed basis.		
Description	FAR Support for Group RE: Implement process to monitor ICR's at LOB and AY level due to new Group requirement.		
	FAR Support for Business Units: Support other projects and or new products as required.		
	Implement new Topline reporting for BUs to support Motor strategy		
	FAR Support for PPM: Implement SBU EPM Model.
